💻 PROJECT EXPERIENCE

React Developer – Personal Portfolio Website
March 2025
Technologies: React, Tailwind CSS, React Router, Vite, Netlify, JavaScript, HTML5, CSS3

- Designed and developed a fully responsive **single-page React portfolio** showcasing professional projects, resume, and contact information.
- Implemented **React Router** to create smooth in-app navigation between About, Projects, Contact, and Resume sections.
- Built custom React components including a **ProjectSlider**, **MusicPlayer**, and animated **ParticlesBackground** to enhance interactivity and aesthetic appeal.
- Styled the site using **Tailwind CSS**, with a soft tropical-inspired color palette, custom hover effects, and a unique visual identity.
- Integrated **form validation** into the contact section with real-time error messages for empty fields and invalid emails.
- Deployed the site using **Netlify**, ensuring continuous integration with GitHub for live updates on every push.
- Maintained clean, semantic code structure and applied best practices for accessibility and responsive design.

🔧 TECHNICAL SKILLS

- **Languages & Frameworks:** JavaScript (ES6), HTML5, CSS3, React.js
- **Styling & UI:** Tailwind CSS, Flexbox, Responsive Design, Custom Gradients
- **Tools & Platforms:** Git, GitHub, Vite, Netlify, VS Code
- **Additional:** React Router, Component-based Architecture, Form Validation, Deployment Automation

---

🎨 CREATIVE SKILLS

- Visual Design, Aesthetic Theming, Brand-Consistent UI
- Custom iconography, SVG backgrounds, and smooth animations
- Strong attention to color harmony and user engagement
